Teacher's Feedback on Curriculum Design and Implementation 2019-20

Action Taken Report

Based on the teacher feedback analysis for the year 2019-20 regarding curriculum design and implementation, the Internal Quality Assurance Cell (IQAC) has identified several key areas for improvement and outlined the following action plan:

Flexibility in Course Selection: Maintain and promote flexibility in choosing value-added and certificate courses, ensuring students can tailor their education to their interests and career goals effectively.

Integration of Crosscutting Issues: Strengthen the integration of crosscutting issues such as gender, environment, sustainability, and ethics into the curriculum. Develop interdisciplinary modules to promote holistic learning and social responsibility.

Improving Evaluation Systems: Evaluate and enhance internal evaluation systems to ensure effectiveness and transparency. Provide faculty with training on assessment methods and practices to maintain rigor and fairness.

Timeliness in Examination Conduct: Address concerns regarding the conduct of examinations and publication of results by implementing measures to adhere strictly to predetermined schedules. Streamline administrative processes to minimize delays.

By implementing these actions, IQAC aims to continuously improve the curriculum's quality and relevance, fostering holistic development and ensuring alignment with national and global educational standards.
