Amal College of Advanced Studies

# INDUSTRY ACADEMIA MEET (IAM)

## Introduction

The Industry Academia Meet (IAM) is a strategic initiative by Amal College of Advanced Studies to bridge the gap between academic learning and industry demands. Recognizing that traditional curricula often fall short in preparing students for the real-world workforce, IAM takes on the responsibility of equipping them with strong demands in the field like hospitality; business management, health, IT with data analytics, trade cum logistics, media and publication

IAM not only facilitates recurrent meets, interviews, and collaborations with industry professionals but also integrates skill enhancement sessions across various domains. Hospitality skills are highly relevant and crucial in the hospitality industry, which includes sectors such as hotels, restaurants, travel, tourism, and events. These skills are essential for professionals working in various roles within the industry, ranging from front-line staff to management positions. Proficiency in business management is vital for industry success, encompassing leadership, strategic decision-making, resource optimization, and organizational efficiency, ensuring long-term viability and prosperity. The significance of trade and logistics in the industry lies in their pivotal role in orchestrating seamless supply chain operations, enhancing cost-effectiveness, boosting competitiveness, and ensuring the timely delivery of goods, ultimately serving as essential pillars for the success and expansion of businesses within the sector.

The industry is placing a growing emphasis on health and fitness, acknowledging the profound influence of employee well-being on productivity and overall business success, leading to a focus on implementing wellness initiatives, ergonomic workspaces, and health-conscious practices to cultivate a positive and flourishing workplace IAM incorporates IT skill development to keep students abreast of technological advancements crucial in today's workplace. Media and publications has got industrial relevance as they serve as effective communication channels, enabling global outreach, facilitating cross-cultural collaboration, and providing a common platform for information exchange, which is essential for international business transactions, market expansion, and maintaining a broad and diverse audience base.

IAM recognizes that a well-rounded professional not only possesses academic knowledge but also excels in interpersonal and soft skills. To provide students with firsthand experiences, IAM includes industry visits, allowing them to witness the application of their academic knowledge in real-world settings. In essence, IAM ensures that students not only excel academically but also emerge as industry-ready professionals, ready to meet the challenges of the dynamic professional landscape.

# INDUSTRY ACADEMIA MEET (IAM)

## The Title

The industry academia meet is a practice opted by the institution to mould the students according to the needs of industry by providing them necessary skills and competence through recurrent meets, interviews and collaborations with industry persons and industries. As the existing syllabus and curriculum focus mainly on academics and struggle to cater the industry needs and skills among students, the program IAM takes up the responsibility of preparing the students industry based and competent.

The practice organizes programs which assure the participation of both industry and academic persons in sessions like talks, discussions, industry meets, industry visits, etc.

# INDUSTRY ACADEMIA MEET (IAM)

## Objectives

To promote entrepreneurship and start-ups through industry orientation, skill enhancement and entrepreneurship development of the students for a seamless transition into the industry upon completing their college education

To provide students with a robust foundation in Information Technology, ensuring proficiency in essential tools and technologies relevant to contemporary industry requirements.

To enhance students' language proficiency, enabling effective communication in professional settings and facilitating cross-cultural interactions.

To nurture well-rounded individuals by fostering leadership qualities, teamwork, emotional intelligence, and other personal development skills essential for success in both academic and professional spheres.

To develop enhanced knowledge, innovations and critical and research skills by setting up start-up incubation centers, skill and technology development center.

To equip students with comprehensive knowledge of health and wellness practices, fostering a holistic approach to personal and professional well-being

To cultivate a culture of innovation and creativity among students, encouraging them to think critically, problem-solve, and generate inventive solutions across various disciplines.

To provide students opportunities for internships with local and international industry, business firms enabling students to actively engage with the practical aspects of their learning, thereby enhancing their employability.

# INDUSTRY ACADEMIA MEET (IAM)

## CONTEXT

### Optional Subhead

Covid-19 Pandemic has led to drastic shrinking of the global economies which results the lack of job opportunities and it becomes increasingly difficult for the youth or graduates to get a new job in this competitive world. Moreover, the syllabus and curriculum are designed only to cater the academic needs, which fail to produce skilled and trained students. The institution realized those circumstances where only those educated youth will find themselves lucky in securing job of their choice who have the necessary knowledge, skills and abilities and competencies to cater to the present day demands of the industry.

This has made the institution necessary to align their academics and training with the industry needs and engage themselves in close interactions and linkages with the industry to enhance the employability skills among its graduates. The institution wants to produce future-ready graduates who could cater to the emerging needs of the local and international industries

## THE PRACTICE

Keeping job and skill-oriented vocation as the key word, the institution has decided to establish Industry Academia Meet as its best practice by integrating academics and industry linkages. The institution is well aware of the current scenario of contemporary world which demands youth of professional and challenging skills.

The practice includes industry meets, industry interactions and internships, recruitments and placements, skill-based training sessions, faculty exchanges and innovations in research.

This becomes an integral part of each Department to identify their respective industry and organize programs to improve the skills of its students. The objective of these programs is to provide best possible education and training to students and to assure the participation of our students in the growth and development of industries also.

This programme is streamlined to 7 domains that represent the current needs of the industry. The domains are Entrepreneurship Skills, Health Skills, Innovative Skills, IT Skills, Language Skills, Math & Logic Skills and Personal Development Skills

So, the industry and academia linkages have become imperative for all the programmes in Arts, Humanities, Science, Commerce and Tourism and Hotel Management.

Each department has been tasked with the responsibility of identifying the industries relevant to their field and coordinating industry academia meets and visits
